

No. 268.

NEW SOUTH WALES
AUSTRALIA

STATISTICAL BULLETIN

MARCH QUARTER, 1943
(ISSUED MAY, 1943.)

COMPILED FROM OFFICIAL RETURNS

S. R. CARVER,

GOVERNMENT STATISTICIAN

PUBLISHED BY AUTHORITY OF

THE GOVERNMENT OF NEW SOUTH WALES

Wholly set up and printed in Australia, by
ALFRED HENRY PETTIFER, ACTING GOVERNMENT PRINTER
NEW SOUTH WALES

1943

[1s.]

NOTE.

The Statistics contained in this Bulletin are the latest available at the time of publication. In some cases the figures are preliminary only and subject to alteration in a later issue.

For complete information regarding New South Wales, reference should be made to "The Official Year Book of New South Wales" or to the "Statistical Register of New South Wales."

A digest of statistical trends as disclosing economic conditions in New South Wales is issued towards the end of each month under the title, "Monthly Summary of Business Statistics."

Particulars of the above publications are shown on the inside front cover of this Bulletin.

NOTE.—The amount of sales for individual months includes some sales effected in previous months.

* Tax collected mainly upon sales in the month shown, but actually received in the following month. The rate of tax was 2½% from 1st August, 1930, 6% from 11th July, 1931, 5% from 26th October, 1933, 4% from 11th September, 1938, 5% from 22nd September, 1938, 6% from 9th September, 1939 and 8½% from 3rd May, 1940.

From 22nd November, 1940, the tax was increased to 10%, or in some cases to 15%, and tax at 5% was levied on some commodities formerly exempt. From 30th October, 1941, the tax on some 5% classes was increased to 10% and on some 10% and all 15% classes to 20%. Some 5% commodities were exempted.

From 1st May, 1942, all goods subject to 5% tax were made tax free, the general rate of 10% was increased to 12½% and all goods taxed at 20% were made subject to 25%.

NOTE.—The above tables are based upon the records of the Commonwealth Meteorologist. The divisions correspond approximately with the statistical divisions shown on the map in the frontispiece of the Official Year Book of New South Wales, each division being subdivided into two sectors indicated by the letters N, S, E, or W according as they constitute the northern, southern, eastern or western portion of the division concerned. Normal Rainfall is based on the period ended 1929.

* Incomplete. Returns are not supplied from rural areas with a population totalling 725,000 persons, comprising 50 per cent. of the population of "Country" and 27 per cent. of New South Wales.

NOTE.—National Security (Building Control) Regulations published 18th November, 1940, and subsequent amendments, imposed a limit on expenditure on new buildings and alterations without the consent of the Federal Treasurer and a ban on commencement of new dwellings and alterations within 25 miles of the G.P.O., Sydney. By amendment dated 19th June, 1942, the erection of, or alteration or addition to, any building may not be commenced nor continued without consent, and consent already given may be revoked or suspended. The Regulations do not apply to buildings or alterations if the cost does not exceed £25, nor, with certain exceptions, to buildings which are exclusively for purposes of air raid precautions.

The "value of private buildings" shown above relates to building permits issued by local government authorities and not to approvals granted under National Security Regulations (these are included when local government permits for the buildings are issued). In some cases the Councils' permits have been issued subject to Ministerial consent.

Temporary structures for protection against air raids and alterations for this purpose are, in general, excluded.

No. 28.—Particulars of Private Building Permits.—New Buildings and Alterations and Additions.

(Government Buildings are excluded.)

Year ...	100	68	76	82	89	101	101	100	113	120	131	...

NOTE.—This index represents the ratio of monthly clearings to the average for the months concerned during the five years 1926–1930. Seasonal fluctuations are, therefore, virtually eliminated. The trend has been smoothed out by taking a three months moving average. The index is adjusted to eliminate the effects of Treasury Bills and other special transactions on behalf of Governments, and the effects of bank amalgamations. No allowance has been made for normal growth or change of price levels.

† Totals for months are approximate and aggregate differs slightly from annual total. ‡ In terms of the Moratorium Act, 1932-1939, the right of mortgagees to demand repayment of moneys secured by mortgage was postponed until 1943. The amount of loan is not stated in all mortgages, consequently this record is incomplete.

No. 47.—Stock Exchange Index (Sydney)—1929-1943.

The following index of the values of the principal Company shares on Sydney Stock Exchange embraces the ordinary shares of companies (excluding banking companies) whose business is conducted wholly or largely in New South Wales. The prices of individual shares are unweighted. There is no base period as the index represents the ratio per cent. of the average prices of ordinary shares to their par values, adjustment being made where capital is written off or bonus shares are issued.

Average for Year.	23 Manufacturing and Distributing Companies.	10 Retail Companies.	8 Public Utility Companies.	5 Pastoral and Finance Companies.	5 Insurance Companies.	Total* Companies 75.	34 Active Shares included in foregoing.

† Includes Working Proprietors.

‡ These estimates are subject to revision.

NOTE.—For the sex distribution of persons employed in factories each year, see Table 20.

Index of Employment—N.S.W.

Owing to the incidence of enlistments and entry into wage-earning employment of persons not normally wage-earners, the index of employment and unemployment has been discontinued since April, 1940. Indexes from June, 1933, to April, 1940, together with a description of the method of compilation, were shown on page 27 of the "New South Wales Statistical Bulletin" for March Quarter, 1941.

No. 49.—Employment in New South Wales.

Estimates of employment formerly published were derived from returns of employers in remitting State Wages Tax which ceased in October, 1941. It is not possible now to compile estimates exactly comparable with those formerly based on Wages Tax Returns.

The table now published has been compiled in a new form adapted to the contents of returns made by employers for purposes of Commonwealth Pay Roll Tax which came into operation in July, 1941. Comparative figures for June, 1933, and July, 1939, have been inserted wherever possible in the table shown below.

Month.	Estimated Total Employment. (a) (Excluding Rural and Household Domestic.)			Pay-roll Tax Returns—Employees recorded on last pay-roll of month by—							
	Government (Commonwealth, State and Local).	Private Employers.	Total.	All Employers furnishing Returns.	Employers whose principal activity was—

(a) Estimated number of wage and salary earners in employment defined as "persons occupied as wage and salary earners" as distinct from "equivalent of full time employment." Employees absent in the defence forces, at home or abroad, and Government relief workers are excluded.

(b) The numbers in columns marked (b) are the total employees on the last pay-roll of each month shown on returns of employers who are taxable, Commonwealth Government and employers who do not pay more than £20 per week in wages being excluded. Employees of State, semi-Government, and Local Government authorities are included under "All Employers Furnishing Returns," and in the appropriate industry column when separate returns are supplied, e.g., Railway Commissioner. These group totals are useful as indicating trend, but do not indicate the actual number of employees in the industries named.

* Prior to October, 1937, the living wages for awards and agreements under State jurisdiction were determined by the Industrial Commission of New South Wales. Since October, 1937, the basic wages of the Commonwealth Court of Conciliation and Arbitration have been adopted for State awards. † For some awards the rate was 6d. higher.

NOTE.—Current Living Wage rates of State Tribunals in other States in May, 1943, were:—Brisbane, 94s.; Adelaide, 94s.; Perth, 98s. 9d. In Melbourne and Hobart the Federal basic rates (as shown in footnote to Table 51) are usually applied.

* From June, 1934.

† From July, 1937.

‡ From October, 1937.

§ From June, 1934, to December, 1939, inclusive, quarterly variations commenced a month later, viz., in March, June, September and December.

NOTE.—The foregoing rates up to February, 1934, represent the Harvester Wage (42s. in 1907) adjusted by retail price index numbers, plus the "Power's 3s." From February, 1931, to February, 1934, the adjusted rate was reduced by 10 per cent. This reduction has been applied in calculating the rates shown above.

As from May, 1934, a new basic rate was determined, the "Power's 3s." abolished, and the 10 per cent. reduction restored to marginal rates.

In July, 1937, a fixed loading of 6s. was added to the basic rate in two instalments, viz., 3s. from 1st July, 1937, and 3s. from 1st October, 1937.

The rates in the other capital cities from 1st May, 1943, were:—Melbourne, 98s.; Brisbane, 92s.; Adelaide, 93s.; Perth, 92s.; Hobart, 94s.

NOTE.—The Sydney index of wholesale prices relates chiefly to basic materials and foods weighted in accordance with consumption in the years 1911–13. Neither the component items nor the weighting have been varied. Consequently the index is a measure of changes in wholesale price levels based on usages which have altered substantially since the period on which the weighting was determined. As such it is useful as an indication of long-term trends over the past 41 years which it covers, on the assumption that the relative importance of component items remained constant. But it no longer serves as a measure of price variations from month to month or from year to year of commodities weighted in accordance with present-day consumption.

Comparisons of wholesale price index numbers since 1938–39 are shown in the following table of index numbers compiled by the Commonwealth Statistician. The method of compilation is described briefly on page 16 of Commonwealth "Monthly Review of Business Statistics," No. 48.

** Includes Ships' Stores exported overseas.

‡ Year ended 30th June.

† Year 1938-39.

§ Figures for 1931 and 1941 exclude articles posted or messages telegraphed in other States of Australia and received in New South Wales. On this account the figures cannot be compared with those for earlier years.

Note—The exports in 1921, 1931 and 1939 include articles produced in other States of Australia. Since 1st January, 1912, the Commonwealth Customs Department has classified all goods produced in the Commonwealth simply as "Australian," without distinguishing, as formerly, the particular State where they were produced.
